

The best business phone system for the tech industry.

Whether you are the founder of a tech start-up, or you're an established business with multiple offices, you need professional business communications that serves your teams and customers effectively. You and the rest of your staff - from sales to developers, programmers or engineers - must stay connected to be responsive and productive. A sophisticated, yet simple and affordable business phone system enables you to manage calls quickly and efficiently from anywhere. You focus on every client and project without worrying about dropped or jittery calls – all while eliminating big bills for services you don't use.

Ooma Office, the #1 rated business phone service, provides the best value to the tech industry.

✓ **24 x 7 Virtual Receptionist directs calls, provides helpful information.**

When you are in meetings with clients or project teams, or it's after business hours, **Ooma's virtual receptionist** greets callers and provides answers to common questions. Clients, software / hardware / manufacturing vendors etc. can easily be routed to the right department or staff member in multiple locations. Quickly build menu options such as: Press 1 for business hours, Press 2 for company directory, Press 3 to speak to an associate. The system is flexible to fit your needs.

✓ **Never miss a business call when in or out of the office.**

Ooma's mobile app provides extension dialing so your teams can use their business number anywhere. Additionally, they'll be able to easily identify a personal call versus one dialing their business number. When in a phone conversation, you can also **flip an active call** from your desk phone to your mobile phone without skipping a beat.

✓ **Be more productive and minimize wasted office space.**

Ooma Hot Desking enables organizations to conserve office space by empowering employees to work from anywhere including unassigned office desks. Employees simply log into their user profile on a device or phone station for a seamless experience.

✓ **Free toll-free and local numbers.**

Eliminate long distance charges on calls between office locations. Attract new clients by providing a free 800 number to reach your tech team as well as your back office and billing departments.

Iron Horse Online

“ I switched from Verizon. Ooma is easier to deal with and gives me the features they (Verizon) had in their buggy and slow business voice application. I saved money, too! ”

– Tony

PC Fixer Guru

“ We had AT&T, Frontier and Vonage. They were all expensive. Vonage kept upping their rates. Verizon is expensive and we only had dial tone two days out of the month (horrible infrastructure maintenance). AT&T was just expensive. Now with Ooma Office we pay 1/4 of what everyone else was charging! ”

– Chris

Ooma enables high tech organizations to serve clients efficiently while maintaining a professional “big company” image, even for smaller firms.

When clients call to schedule appointments or to speak to a specific project manager, it takes just seconds to park or transfer a call to the right staff members. Your professional conference bridge makes conference calls smooth and easy. Providing a great experience to your clients and your extended ecosystem of vendors builds loyalty and referrals.

With Ooma Office, you get all the business phone features that are perfect for meeting the daily balancing act of managing your clients and your firm. You always get clear, flexible, reliable communications that save money at one or multiple offices.

Ooma Office offers three service plans to meet a variety of business needs. Pricing is all-inclusive with no surprise add-ons or setup fees.
